Thermostat

Homeowner Features		iComfort® Smart			ComfortSense® Programmable		
		S30	E30	M30	CS7500	CS5500	CS3000
Precise Comfort® Plus	Works with Lennox-brand iComfort-enabled variable-capacity equipment to offer the highest level of comfort and overall system performance	X					
Flexibility	Compatible with Lennox-brand non-iComfort-enabled equipment and other brands of heating and cooling equipment		X	X	X	X	X
Amazon® Alexa	Compatible with Amazon Alexa for smart home automation	X	X	X			
Apple HomeKit™	Compatible with Apple HomeKit for smart home automation	X	X				
Google Home™	Compatible with Google Home and Google Assistant™ for smart home automation	X	X	X			
If This Then That (IFTTT)	Creates chains of conditional statements, called applets, that activate a system to respond to specific scenarios	X	X	X			
Energy Savings	Programmable schedules save energy when no one is home	X	X	X	X	X	X
Filter Reminder	Reminds homeowner when it is time to change the filter	X	X	X	X	X	X
Automatic Changeover	Automatically changes between heating and cooling to keep the house comfortable in spring & fall	X	X	X	X	X	
Color Touchscreen	Large, easy-to-use display with adjustable brightness	X	X	X	X	X	
Run-Time Report	Shows how long the heating or cooling system has run	X	X	X	X	X	
Humidity Control	Works with whole-house humidity-control systems to adjust the home's humidity level	X	X	X	X		
Ventilation Control	Allows control of ventilation systems through the thermostat	X	X				
Remote Control	Control all thermostat functions from anywhere using a mobile device	X	X	X			
Remote Adjust	Adjust temperature from anywhere using a mobile device	X	X	X			
Weather-On-Demand	Provides current outdoor temperature and a five- or seven-day forecast	X	X		X		
Picture Upload	Allows upload of a personal photo to display as the thermostat screen	X	X				
Screen Saver	Variety of screen savers, including weather videos or picture uploads, enhances wall appeal	X	X				
Basic Alerts	Automatically emails alerts to homeowners and dealer if the system needs service or maintenance	X	X	X			
Advanced Alerts	Monitors all of the system components and uses advanced diagnostics to identify the issue	X					
Climate IQ® Technology	Monitors indoor and local outdoor conditions and uses the AC or heat pump to automatically remove excess humidity to create a more comfortable and healthier home	X					
Smart Away® Mode	Uses the location services on the homeowner's phone to detect when they come and go, adjusting the temperature accordingly to save energy and maximize comfort	X	X	X			
Schedule IQ™ Technology	Creates a schedule using Smart Away geo-fencing capabilities and homeowner inputs to maintain comfort when the home is occupied and help save energy when it's not	X	X	X			
Feels Like™ Temperature	Adjust one setting that takes into account multiple factors such as temperature and humidity to make the home feel the way the homeowner wants it to	X	X	X			
Auto (Perfect Temp)	Like Auto Changeover, the system automatically decides between heating and cooling, but requires just one setpoint	X	X				
Allergen Defender	Monitors the air quality and pollen levels of local ZIP code and automatically turns the fan on to clean the home's air when outdoor levels are high	X	X				
Performance Report	Summarizes the performance of the system for the day and hour and sends monthly summary emails showing month-to-month heating and cooling usage comparison and active service alerts	X	X	X			
Dealer Features		S30	E30	M30	CS7500	CS5500	CS3000
Automatic Setup	Takes the guesswork and hassle out of commissioning a system; in less than a couple minutes, the system can be set up and running	X					
Automatic Self-Test	Tests the equipment after commissioning to make sure everything is working properly	X					
Detailed Diagnostics	Tells you exactly what's going on, so you know which tech to send ahead of time	X					
Remote Monitoring	Lets you see the status of every iComfort thermostat you've installed for more proactive service and lasting customer relationships	X	X	X			
Performance Report	Summarizes the performance of the system for the day and hour; and sends monthly summary emails showing month-to-month heating and cooling usage comparison and active service alerts	X	X	X			
Remote Troubleshooting	In the event of a problem, dealers can remotely login to a homeowner's HVAC system to diagnose system issues, change system parameters and, if possible, fix the problem	X	X				
Installation Report	Once setup has been completed, an installation report is created that lists the equipment and its settings	X	X	X			
Mobile Setup App	Use your phone to make changes to the system while standing next to the equipment or from anywhere else in the home and watch what happens in real time	X	X
